ITCC Admin – Updates & Improvements

We have made several improvements to the **ITCC Admin Application** to make it faster, easier to use, and more reliable for everyone. Here's what has changed:

New URL - https://admin.tipitakachantingcouncil.co.in

---

1. Faster Application Loading

- The app now loads much faster thanks to **server-side rendering**.

- You will notice quicker reloading when you switch between pages or open the application.

---

2. Better Editing Options

- Admins can now edit **all fields** of a registration record:

- This means there's no need to request a complete re-registration for small corrections.

---

3. Flexible File Upload

- You **don't need to upload all files again** during an update.

- Just upload the file(s) you want to change — the rest will remain the same.

---

4. Verify Anytime

- Admins can now verify a record even after it has been returned for changes.

- This makes the verification process smoother and avoids extra steps.

---

5. Mobile-Friendly & App Experience

- The entire design has been made **mobile friendly**.

- You can also install ITCC Admin as a **mobile or desktop app** using Progressive Web App (PWA) technology for a seamless experience.

---

6. Email Notifications with CC

- Whenever a record is **verified, rejected, or returned**, a **group email** will be automatically CC'd.

- The email will also include the name of the admin who performed the action for better transparency.

---

7. Easier Navigation with Tabs

- Clear tabs for better organization:

  - **Pending**

  - **Returned**

  - **Verified**

  - **All**

  - **Rejected**

- ○ **Archived**

This helps you quickly find the records you are looking for.

---

8. Global Search

- A **search bar** is now available at the top.

- Search across all records instantly, no matter which tab you are in.
